

A Creative Audition

Performers will need to construct a musical instrument and be able to demonstrate the ability to control loudness, pitch and quality of sound during their audition.

Performers will be judged on the following criteria:

- Produce sound using recyclable materials (things found around the house)
- Demonstrates methods of controlling sound (volume and pitch)
- Explains how or why the volume and pitch change.

Instrument should be well constructed and show creativity.

Performers are encouraged; not required; to play a recognizable tune. **COMPLETE THE SELF ASSESSMENT PRIOR TO PERFORMING!**

Auditions will begin on Monday

March 16th, 2015

MY AUDITION!

Student Assessment: _____

Audition	WOW	Good	Ok	Could Be Better
I was able to make loud and soft sounds.				
I was able to change the pitch from high to low.
